### Wednesday, August 19

Two different COVID-19 related issues were reported today:

- Northside Middle School: A student has tested positive. This student has not been in school all week, but had been in close contact with several other students last week during the onset of symptoms. Most of those contacts took place outside of school. After conducting contact tracing, we have identified 28 other students as close contacts. They were all removed from classes today and sent home to quarantine for 14 days as outlined on page 7 of our [Reopening Plan](#). As a reminder, siblings of these close contacts do not need to be quarantined and can keep going to school. Quarantined students will continue with their schoolwork from home using our [Schoology](#) learning management system.
- Muncie Area Career Center: Principal Caleb Beasley found out today that a member of his family has tested positive. He has not experienced any symptoms himself, but will be on quarantine, working remotely, and eligible to return to work September 1. Dean J.D. Craft will assume day-to-day on-site leadership responsibilities during this time.
