Tuesday, Sept. 15

- Muncie Area Career Center: Two students have tested positive. One student had not been in school since September 4. After conducting contact tracing on this student, we have identified nine other students as close contacts who have all been sent home to quarantine. Only one of these students attends Central High School; seven attend Blackford HS; and one attends Delta HS. The other student who tested positive has not been in school since September 10, and he is a member of the Muncie Central football team. We have identified 32 other students and five coaches as close contacts. As a result, the football program is on hiatus until September 24. There is also a close contact from Yorktown HS. As a reminder, siblings of close contacts do not need to be quarantined and can keep going to school. The quarantined students from Central will continue with their schoolwork from home using our [Schoology](#) learning management system.
